

CLOUD NINE 6 in 1 Anti-Ageing Device

The device comes with advanced high frequency heating technology & Ion+/-deep facial cleansing technology & Absorption technology & micro-current muscle massage & RED Light and Blue Light & Cooling technology.

Each function can be used individually or combined with other functions of your choice.

High frequency technology: heats to deeper dermis layer, stimulating the production of new collagen and elasticity fibre, instantly visible, long-lasting results

Ion + & Vibration: deeply cleans unclogs pores. Improves deep skin tissue absorption of skincare products

Micro-current (EMS) muscle massage: rejuvenates skin and improves firmness

Red light: repairs the damaged skin tissue and stimulates new collagen production as well as increase blood circulation

Bluelight: smoothes and soothes skin tissue

Cool technology: tightens pores, soothes and reduces puffiness

How to use

Press and hold the on/mode button for a few seconds until the device beeps and switches on

The device automatically switches on to cleanse mode

Press the mode button again to manually switch through each of the six settings. If you click too far continue to click to return to the setting you wish to use.

Clean, Import, Eyecare, EMS Up, RF LED, Cool.

Settings:

CLEANSE - CLEARS SKIN

Deeply unclogs pores and reduces the appearance of breakouts without compromising on comfort. Leaving skin with a clean and radiant finish.

IMPORT - PRODUCT ABSORPTION + COLLAGEN PRODUCTION

Red light therapy works to stimulate collagen production. Improving product absorption deep into the skin layer.

EYE CARE - REDUCES DARK CIRCLES

Ion Technology works to reduce dark circles and puffiness. Promoting product absorption into the skin layer.

EMS - FIRMER, TIGHTER SKIN

Electric Muscle Stimulation (EMS) lifts and tightens skin and facial muscles resulting in youthful and lifted skin.

INFRA-RED LIGHT - REDUCES FINE LINES AND WRINKLES

Infra Red Light emits beneficial light rays that energize cells and stimulate the skin's natural renewal process. Naturally plumping the skin by increasing collagen production and working to erasing fine lines and wrinkles.

BLUE LIGHT - FIGHTS ACNE AND BLEMISHES

Blue light Therapy works to heal existing blemishes and prevent future breakouts. Improving skin texture, by destroying acne-causing bacteria, reducing pores and locking in moisture.

**For each setting you can increase the ION and EMS level from 1 to 5. Use Ion + & Vibration: to deeply clean and unclogs pores. Improve deep skin tissue absorption of skincare products. Use Micro-current (EMS) muscle massage to rejuvenates skin and improve firmness*
